-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. Claims 18-21 are rejected under 35 U.S.C. 102(e) as being anticipated by Johnson (6174397 or 6321423).

The applied reference has a common assignee with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

Johnson'397 relates to a reclosable bag (abstract) comprising a body (see figure-10) having an opening and opposing walls (930, 940), and a fastener tape mounted in said opening, wherein the fastener tape comprises a profile fastener carried on an intermediate layer defined by a lip and a wall opposite said lip (770, 780). As shown in the drawing, the portions of the lip and the opposite wall are sealed to opposite bag walls, that the lip is peel sealed to the opposite wall on a side of the profile fastener adjacent said bag opening, and that the lip is sealed to said opposite wall at the ends of

Art Unit: 1772

said fastener tape, wherein said end seals merge with said peel seal. The figure-10 also shows the intermediate layer being defined by an upper flange, a lip and a lower flange.

Similarly, Johnson'423 relates to a reclosable bag having the structure as claimed and is shown in figure-10.
